I am employed by [REDACTED]. I have worked here for 2 and a half years. On Sunday the 3rd of May I was working in the Kirkcaldy area with my colleague David Grey. David was driving and I was in the passenger seat. I don't know the registration number but it is a white transit van, a Mercedes Sprinter, it doesn't have any company logo on it or any markings. About ten past seven as we were driving along we were waved down by a guy in a car who drove up beside us. I don't know which road this was, I am not familiar with the area at all. I remember we had just done our first drop at [REDACTED] Birnam Road, Kirkcaldy and we were heading to our next job at [REDACTED] Lauder Road, KY2 5BD, so it would have been somewhere inbetween there. David spoke with the guy in the car, because of the angle where I was sitting in the van I couldn't see him at all. I can't remember what kind of car it was but it may have been red. I couldn't hear what the guy said to Dave

and Dave didn't really say much back. As we drove away from him I asked Dave what the guy had said, he told me the guy said there was a man standing in the middle of the road with a knife and we should turn around. I don't remember what street it was but a couple of minutes after speaking to the guy in the car I seen the man with the knife walking in the middle of the road. He was about 50-60 metres away from me, he was a black guy, I can't really remember what he was wearing. It was possibly a t-shirt and trousers, he looked quite stocky. He had the knife in his left hand, it looked about twelve inches in length, like a carving knife. He looked quite menacing, he was walking as though he owned the place, full of bravado. We continued on our journey to our next job, we didn't get any closer to him. Shortly afterwards I seen one police vehicle with sirens on drive towards us and an ambulance. They were headed in the direction of the guy. I didn't see him again after this. I don't remember any other cars in the area at the time other than the one that stopped us. I didn't see any other pedestrians either.

I can confirm that this is a true and accurate record.
