I am Pauline Donaldson and I employed by Scottish Police Authority as an Airwave Communications Officer based at 'P' Divisional HQ, Fife (Glenrothes) and have held this post for 10 years. I have an HNC in Administration and Information Management dated 2004. My duties include the analysis of call data records obtained from airwave solutions limited in respect of all calls made by police radio communication devices. On Wednesday 20th May 2015, I was requested by DC 491 John McGregor from the Major Investigations Team of the Police to analyse and produce certified call data from 3rd May 2015 in Fife talk group Kirkcaldy01. I have accessed the Airwave Solutions Ltd. Management Limited Service Management Terminal Fife data section and produced:

WITNESS STATEMENT

Label No: Call Data Report 1

which is in EMT from 06:13:58 - 06:41:00 so this is one hour behind the actual time.

I have also produced:

Label No. Call Data Report 2

which again is in EMT and from 07:35:16 - 07:55:15 hours.

These documents have details of terminals that transmitted during the specified time, being individual officers airwave terminals as well as the fixed dispatch terminals in the central room, however,, these are just from whoever is on duty there. I played no further part in this enquiry and cannot identify persons involved.
