Expressed our concerns regarding the
press coverage. Our concerns have been

the PIRC will contact the family direct re

I again referred Collette to the mobile telephone belonging to Shoku with number [redacted].

I asked Collette if she had thoughts any more about providing the said mobile phone to PIRC. Collette stated that she had so many things to consider that thoughts about the phone had escaped her. She said that she would really need to speak with Ade about the matter. Collette also said that she could not understand why PIRC needed the mobile phone. I stated to Collette the following

That PIRC needed the phone in order to ensure that every aspect of the enquiry was pursued. I stated that it was believed that Shaka had used the phone before he came into contact with police and that accordingly there might be something that would be meaningful to the PIRC investigation contained on the phone.

I informed Collette that in the event of her providing the phone to PIRC, that it would be ensured that the content of the phone would be downloaded for her onto a disc / memory stick and that such would be provided to her.

Collette agreed to think over what I had said. We agreed to speak again tomorrow after 10.00 hours. I suggested that Adi contact me should he wish to discuss the PIRC request with me. Director Mitchell made aware.

Phone call from Ade as per previous entry. Ade is having problems registering the death as he needs the death certificate (form 11). Advised to contact Aamer as he has stated he has the funeral arrangements 'in hand'. Further advised body was ready for collection Friday 29.5.15 and it is good practise for the undertaker to uplift the death certificate at the same time as the body. Also arranged to obtain statement from Sheku's mother at 1400hrs today.

Contact Date/Time: 3 June 2015, 16:00hr.

Record of Contact (Negative replies included):-

Meeting with Lorraine Bell, during the course of which a witness statement was recorded from Lorraine Bell by me. Statement was taken in the presence of Collette Bell and her baby son [redacted].
At conclusion of statement both Jo Lewis and I discussed matters with which Lorraine and Collette were both very concerned. Their main discontent related to statements in the press who they attributed to Police Scotland and Solicitor Peter Watson. Jo Lewis and I ultimately reminded both Lorraine and Collette that the PIRC investigation was Crown directed. We explained the implications in view of direction by Crown to PIRC in this matter.

Courtesy call to Aamer. Asked how the family were.

Found Aamer to be very subdued. He confirmed Ade had emailed family tree to myself and that he was speaking to the family today (18.6.15). He also suggested another meeting with the family. I suggested this is normal practise as the PIK was considering same. No date arranged at this time. States he will phone 19.6.15 regarding interviewing other family/friends.
